EXPECTED WORKLOAD

A range of teaching and learning methods including one-to-one tutorials and workshop-based practice, seminars and lectures. Open and flexible learning approaches which are developed through the use of a range of both paper and technology based learning materials, the provision of Learning Resource Centres, a Virtual Learning Environment and significant time spent undertaking independent study. Throughout the course, considerable emphasis is placed on self-evaluation and self-reflection.

Qualification credit value: a minimum of 120 credits.

All units are at Level 4.

The course will be 480 Guided learning hours

STAFF INVOLVED IN PROGRAMME DELIVERY

You will be taught by an experienced and well qualified teaching team whose expertise and knowledge are closely matched to the content of units on the course. The team includes academics and professional practitioners with current industry experience.

METHODS OF ASSESSMENT

The course will be assessed by set assignments and/exam. Exams will usually be 1.5hrs. A programme of assignment issue dates and hand-in dates will be issued.

Formative assessment and feedback (verbal and/or written) is given at set points throughout the academic year to discuss progress, encourage reflection on work to date, highlight and identify any areas for further development and to suggest ways of improving work performance. Summative Assessment is conducted in accordance with the Awarding Body guidelines at the end of a module or series of modules and grades are submitted at specified times in the academic year.

AWARDING BODY
