|-------------|--|---|------------------|-----------------------------|
| 28/08/2020  | Yes  | All individual site covid secure risk assessments amalgamated into this one generic document. Assessment ratified for use by the SLT. |                  | I.Lee                       |
|             |  |   |                  |                             |
|             |  |   |                  |                             |

**\* THIS RISK ASSESSMENT MUST BE SHARED WITH ALL INVOLVED IN THE ACTIVITY\***

**KC initial risk ratings take in to account that controls have already been considered and have been implemented**

## Kirklees College Risk Assessment

The coronavirus shutdown of College due to the Covid-19 pandemic has been an unprecedented event and as such the risk assessment below involves many changes to protocols within College that staff **MUST** be made aware of **PRIOR** to returning to College. This will allow two way conversations between Management and staff to overcome and address any issues that staff may have before they return to College.

**Managers are responsible in their areas for developing their own departmental/task based risk assessments using the content of this template**

**Managers are responsible for ensuring their departmental/task risk assessments are kept up to date and communicated with teams, in line with any changes made to this risk assessment.**

### Management/H&S Checks prior to re-opening of Centre

- **Ensure that appropriate Covid-19 signage has been placed around the building informing staff of current Government and College protocols, informing of what has changed.**
- **The risk assessment and re-opening plans **MUST** be signed off by the SLT and H&S Department before being issued to staff.**
- **Seek the views of staff before re-opening to ensure all individual issues have been discussed and appropriate changes implemented where necessary.**
- **Ensure that the Joint Trade Union Representatives are kept informed of the risk assessment process at all stages and ideally involve the Representatives in the Walk-through exercise prior to re-opening.**
- **Local management/H&S Representative/Union Representative to carry out a thorough walk through of the building prior to re-opening. This will help in identifying any issues previously missed.**

|----|---|--|---|---|---|--|--|--|
| 17 |   | <p>Where first Aid treatment is necessary for isolated students and staff members the first aider must be given the choice if they wish to provide first aid treatment as this may include close contact with the individual. They must also wear PPE in the form of respirator, apron, gloves, and disposable eye protection, and follow procedures for disposing of PPE and thoroughly washing hands after assistance is provided.</p> <p><b><u>Note for ALL First Aiders:</u></b></p> <p>It is recommended that you do not perform rescue breaths or mouth ventilation. Where possible, perform chest compressions only, to avoid catching the virus. This does not provide a significant risk to the person requiring first Aid.<br/><i>Resuscitation Council (UK) Guidelines 2010 for basic life support.</i></p> <p><b>Disposable eye protection, disposable aprons and masks have been added to individual first aid kits which each first aider will be issued with.</b></p> | 2 | 4 | 8 |  |  |  |
| 18 | <p><b>Use of Smoking shelter and vaping:</b></p> <p>Ignoring Covid 19 protocols</p> | <p>Follow Government advice re social distancing whilst using this facility.</p>   | 1 | 4 | 4 |  |  |  |

## CRITERIA FOR ESTIMATING RISKS

### LIKELIHOOD OF HARM OCCURING CRITERIA

|   |               |   |
|---|---------------|---|
| 1 | Very Unlikely | An incident will only occur in exceptional circumstances and is a very rare |
| 2 | Unlikely      | An incident is not likely to occur  |
| 3 | Fairly Likely | An incident may occasionally occur whilst the event is taking place         |
| 4 | Likely        | An incident is likely to occur whilst the event is taking place             |
| 5 | Very Likely   | An incident is almost certain to occur whilst the event is taking place     |

### SEVERITY OF HARM OCCURING CRITERIA

|   |               |   |
|---|---------------|---|
| 1 | Insignificant | Insignificant/very slight Injury – Not likely to require any treatment, no financial loss                     |
| 2 | Minor         | Minor injuries/ill health requiring first aid, minimal financial loss to the College                          |
| 3 | Moderate      | Injury/ill health requiring time off work, may impact the college due to the financial loss sustained         |
| 4 | Major         | Major injury requiring hospital treatment and possibly life changing, excessive financial loss to the College |
| 5 | Catastrophic  | Death or High impact on the future running of the college through financial losses                            |

### RISK ASSESSMENT MATRIX

|  |   |          |    |    |    |    |

Numerical Risk Rating

|  |   |           |           |             |             |             |
|--|---|-----------|-----------|-------------|-------------|-------------|
| L<br>I<br>K<br>E<br>L<br>I<br>H<br>O<br>O<br>D | 5 | Moderate  | Moderate  | Substantial | Intolerable | Intolerable |
|  | 4 | Tolerable | Moderate  | Substantial | Substantial | Intolerable |
|  | 3 | Tolerable | Moderate  | Moderate    | Substantial | Substantial |
|  | 2 | Trivial   | Tolerable | Moderate    | Moderate    | Moderate    |
|  | 1 | Trivial   | Trivial   | Tolerable   | Tolerable   | Moderate    |
|  |   | 1         | 2         | 3           | 4           | 5           |
|  |   | SEVERITY  |           |             |             |             |

Explanatory Risk rating

## Risk Rating Explanations

| RISK LEVEL                     | ACTION AND TIMESCALES   |
|--------------------------------|---|
| TRIVIAL<br>( <b>LTri</b> )     | No action is required   |
| MODERATE<br>( <b>Mod</b> )     | Efforts should be made to reduce the risk(s), but the cost of prevention should be carefully measured and limited. Risk reduction measures should be implemented within a defined time period.<br>Where the moderate risk is associated with extremely harmful consequences, further assessment may be necessary to establish more precisely the likelihood of harm as a basis for determining the need for improved control measures |
| SUBSTANTIAL<br>( <b>HSub</b> ) | Work should not be started until the risk has been reduced. Considerable resources may have to be allocated to reduce the risk. Where the risk involves work in progress, urgent action should be taken.  |
| INTOLERABLE<br>( <b>HInt</b> ) | Work should not be started or continued until the risk has been reduced. If it is not possible to reduce risk even with unlimited resources. Work has to remain prohibited.   |

## Low/Medium/High Converted Risk Levels

| Converted Risk Level | Conversion Explanation  |
|----------------------|---|
| <b>Low</b>           | Low Risk Level – Incorporates both Trivial and Tolerable risk ratings (1-4)           |
| <b>Medium</b>        | Medium Risk Level – Covers Moderate risk rating (5-10)                                |
| <b>High</b>          | High Risk Level – Incorporates both Substantial and Intolerable risk ratings (12 -25) |
