RISK ASSESSMENT MATRIX	43

#### KC initial risk ratings take in to account that controls have already been considered and have been implemented

The coronavirus shutdown of College due to the Covid-19 pandemic has been an unprecedented event and as such the risk assessment below involves many changes to protocols within College that staff MUST be made aware of PRIOR to returning to College. This will allow two-way conversations between Management and staff to overcome and address any issues that staff may have before they return to College.

Managers are responsible in their areas for developing their own departmental/task-based risk assessments using the content of this template

Managers are responsible for ensuring their departmental/task risk assessments are kept up to date and communicated with teams, in line with any changes made to this risk assessment.

#### Management/H&S Checks prior to re-opening of Centre

- Ensure that appropriate Covid-19 signage has been placed around the building informing staff of current Government and College protocols, informing of what has changed.
- The risk assessment and re-opening plans MUST be signed off by the SLT and H&S Department before being issued to staff.
- Seek the views of staff before re-opening to ensure all individual issues have been discussed and appropriate changes implemented where necessary.
- Ensure that the Joint Trade Union Representatives are kept informed of the risk assessment process at all stages and ideally involve the Representatives in the Walk-through exercise prior to re-opening.
- Local management/H&S Representative/Union Representative to carry out a thorough walk through of the building prior to re-opening. This will help in identifying any issues previously missed.

#### For the avoidance of doubt:

PPE – IIR Face Masks, FFP2/3 Mask, Gloves, Aprons, Face Shields
Face coverings – are not classified as PPE – example of face coverings, snoods, scarves, or users own face coverings

Ref No.	Work Activity and Hazards	Control Measures Required	Likel y- hood	Sev- erity	Residual Risk Level with Controls	Are further Control Measures Required following a review? By When and Person Responsible	Likeli - hood	Sev- erity	Resi- dual Risk Level
1	Staff and students lack of knowledge/neglect in adhering to government guidance  Intentional or unintentional spreading of COVID-19 virus	NO STAFF OR STUDENTS WHO DISPLAY SYMPTOMS OF COVID-19 TO ENTER THE PREMISES.  Staff briefing to provide suitable and sufficient information advice and guidance on protecting themselves and students, complying with up to date government guidance.  Care should also be taken to cough or sneeze into a tissue and dispose of this in the nearest bin.  Bins should be emptied on a regular basis by College cleaning and CSO staff.  Posters and signage displayed in key areas around each site instructing all staff and students of the importance of good hygiene, hand washing, and social distancing measures.  Staff to ensure students are adhering to latest government guidelines including social distancing, handwashing, testing, self-isolation etc whilst on College premises.  Students will all be briefed on College expectations and agreement on College rules to be followed during the pandemic.	2	4	8	Various Posters from NHS, Government and WHO displayed at all College sites to promote good covid secure protocols.			

		Minicos			•	Official		
1		All staff will be made aware of procedures to follow should someone fall ill whilst on College premises.	2	4	8			
2	Co-operation and co- ordination when arriving on Site.  Individuals not adhering to social distancing whilst arriving on Site.  Not wearing ID lanyards	Students and Staff members who need to remove and dispose of a face covering when they arrive at the College should dispose of these in a bin and wash their hands immediately afterwards.  Temperature checks are available on site within PMC and are managed locally  Manned barriers used to control congestion at entry points  Barriers used to control access and students or staff known to be self-isolating can have access limited to prevent unauthorised access to site  Markers to be placed to the external of all sites to ensure social distancing upon arrival  All staff, students, visitors arriving on site must sanitise hands on arrival  SLT Member designated as duty  Manager on each site – high visibility to monitor compliance	1	1	1			
3	Use of communal area of the premises	NO STAFF OR STUDENTS WHO DISPLAY SYMPTOMS OF COVID-19 TO ENTER THE PREMISES	2	4	8	Students or Staff displaying symptoms or becoming unwell whilst on college premises must be sent to the isolation room.		

		ווווווככס	001108	<u> </u>	17 10000	omone
3	Contamination of premises by staff/students who are Symptomatic/	All staff/students/visitors/contractors to use hand sanitiser at entrances to the building.  It is now mandatory that all staff,	2	4	8	The isolation room for the  Waterfront is A01.003 located on Level 1 near the front entrance lobby.
		students, visitors, contractors, deliveries wear a Face Mask/Covering when transiting around sites				The isolation room for the  Springfield Centre is the quiet room located on the Ground Floor near the front entrance lobby and

AS PART OF THE UK GOVERNMENTS PLAN B THE GOVERNMENT HAS ASKED FOR ALL THOSE THAT CAN WORK FROM HOME TO DO SO FROM MONDAY THE 13 <sup>TH</sup> DECEMBER 2021 – DEPARTMENTAL MANAGERS ARE ASKED TO MAKE A DECISION BASED ON THE NEEDS AND IMPACT ON THE BUSINESS AND TO ASK STAFF THAT CAN WORK FROM HOME TO DO SO BUT TO ENSURE THAT FACE TO FACE DELIVERY CONTINUES AS PER THE DFE GUIDANCE		
5	Use of Toilet and wash facilities  Ignoring Covid 19 protocols leading to Infection.	Hand Soap dispensers checked on a daily basis, replenished and cleaned down throughout the day by cleaning and CSO staff.  Information and Posters are displayed in toilets and around sites reminding students/staff of the importance of social distancing, hand washing, and up to date government/PHE/NHS guidance.  Where close contact with someone for intimate care needs or supervision is	1	4	4			

		ווווווככס	Conce		1 / 10000	official and a second s	 	
5		required and the person is non- symptomatic of Covid 19 then further protective measures and PPE will be required (Please see Risk Assessment for Care workers under sections 6 and 7 available on KC Share)  Hand sanitisers are provided in multiple locations around the buildings other than washrooms.  Schedules and guidance for toilets is in place to ensure they are kept clean and social distancing is achieved as much as is reasonably practicable.  Cleaners/CSO are providing more frequent rubbish collections.	1	4	4			
6	Sharing of equipment during teaching/learning/ enrichment activities  Ignoring Covid 19 protocols leading to infection.  Ineffective cleaning protocols	All students will continue to be provided with their own equipment during activities so that no equipment will be shared.  Any equipment used will be cleaned after use using appropriate cleaning products by staff wearing disposable gloves.  IT equipment will be cleaned before and after use by users. Cleaning materials will be available in all computer rooms.	1	4	4			

		Kirkiees	Collec	Je i (isi	N 73363	SHIGH		
		measures are in place.  All tutors/group leaders to carry out individual risk assessments for activities taking place in their own designated rooms, to ensure suitable and sufficient control						
7	Vulnerable Staff (clinically vulnerable): Returning to College premises whist virus is still prevalent in society	Social Distancing will remain as staff and students transit around the premises and in communal areas.  Whilst the wearing of masks/face coverings are no longer recommended in classrooms and communal areas by the Government, it is now mandatory that all staff and students wear face coverings when moving around sites and accessing busy communal areas. Depending on infection rates and our stepup response to managing outbreaks, the wearing of face coverings will remain under constant review.  All Staff and students must continue to practice high standards of respiratory hygiene and wash and sanitise hands regularly throughout the day  All vulnerable and clinically extremely vulnerable staff members should have now received both doses of the COVID 19 vaccine however if not they are strongly	1	5	5			
		encouraged to participate in the national vaccine rollout.						

		ווווווככס	Conog	10 1 (10)	17100001	on one	 	
		HSE guidance:  There are currently no expectations of additional controls specifically for these groups. However, make sure existing controls identified by your risk assessment, for example adequate ventilation, good hygiene and cleaning, are applied strictly.  As an employer, you can support these individuals/groups in your workforce by ensuring:  - you emphasise the importance of individual and wider workforce						
7		engagement, buy-in and cooperation to ensure controls are applied stringently  - they have individual discussions with their managers around their particular concerns  - you/they discuss the risk management measures you have put in place to minimise transmission to keep them, and others, safe  - you explain the controls you will put/already have in place to protect them and other workers	1	5	5			
8	Vulnerable Staff considered extremely vulnerable:  Returning to College premises whist virus is still prevalent in society	Social Distancing will remain as staff and students transit around the premises and in communal areas.  Whilst the wearing of masks/face coverings are no longer recommended in classrooms and communal areas by the Government, it is mandatory for all staff and students to	1	5	5

			As an employer, you can support these individuals/groups in your workforce by ensuring:  - you emphasise the importance of individual and wider workforce engagement, buy-in and cooperation to ensure controls are applied stringently - they have individual discussions with their managers around their particular concerns - you/they discuss the risk management measures you have put in place to minimise transmission to keep them, and others, safe - you explain the controls you will					
			put/already have in place to protect them and other workers					
	9	Pregnant Workers – less than 28 weeks gestation with no underlying health conditions that place them at a greater risk of severe illness from Coronavirus (Covid 19)	All pregnant workers must have a workplace risk assessment with their line manager  Pregnant workers should only continue working if the risk assessment advises that it is safe to do so.  This means that the College will remove or manage any risks. If this cannot be done, pregnant workers should be offered suitable alternative work or working arrangements (including working from home) or be suspended on your normal pay.	2	4	8		

	_	Minicos	0005	,			 
		The College will ensure they are able to adhere to any active national guidance on social distancing.					
		Some higher risk occupations such as those with greater public contact or in healthcare may carry a higher risk of exposure to the virus. In healthcare settings this may include working in specific higher risk areas or higher risk procedures as summarised in the Public Health England publication Guidance on Infection Prevention and Control.					
9		Pregnant workers will be supported with appropriate risk mitigation in line with recommendations to staff arising from workplace risk assessment.  If alternative work cannot be found, advice	2	4	8		
		on suspension and pay can be found in <u>HSE guidance</u> .					
10	Pregnant Workers – who are 28 weeks pregnant and beyond with underlying health conditions that place them at a greater risk of severe illness from Coronavirus (Covid 19)	If you are 28 weeks pregnant and beyond, or if you are pregnant and have an underlying health condition that puts you at a greater risk of severe illness from COVID-19 at any gestation, you should take a more precautionary approach.  This is because although pregnant workers are at no more risk of contracting the virus than any other non-pregnant person who is in similar health, they have an increased	2	5	10		

		TAIRICCS		<i>)</i>			
		risk of becoming severely ill and of pre-term					
		birth if you contract COVID-19.					
		The Callege will an arms man and art wenters

Staff should continue to monitor and adhere to current government guidelines on health conditions which make people more vulnerable to COVID-19.  Posters and additional signage have been placed around the college to increase awareness of best practice in respect of cleaning and hygiene.						
16	Outbreak of COVID- 19 within college – staff and students infected as part of the workplace	If a staff member or a student develops symptoms of Covid 19 they should be sent home/hospital following the First Aid Guidance that was issued by the H&S Department (available on the H&S page of KC Share).	1	5	5	Although no longer a requirement to track and trace all known contacts all curriculum and business support areas are expected to continue to log known positive cases.		
	activities taking place Severe Illness	If the staff member or student is sent home or you receive a call from a staff member or student saying they believe they have symptoms then you must ask them to self-				An outbreak should be considered if the following threshold is met or breached:		
	Hospitalisation  Deaths	isolate for <b>10 days</b> . Household members and close contacts will only need to self-isolate if they have <b>not</b> been double				Five students or staff likely to have mixed closely test positive for Covid within a 10-day period.		
	Damage to reputation	vaccinated or they are below the age of 18 years and 6 months old.				In all instances of a suspected or known outbreak it may be		

	Kirklees (	Colleg	ge Risi	k Asses	sment
16	They then <b>must</b> be asked to arrange for a test by visiting NHS.UK or telephoning NHS 119  If the test comes back <b>negative</b> then the staff member or student can return to College.  If the staff member tests <b>positive</b> then they should immediately isolate for <b>10</b> days from the day they started with symptoms or the day they tested positive ( <b>whichever comes first</b> )  If a student tests <b>positive</b> then they should immediately isolate for <b>10</b> days from the day they started with symptoms or the day they started with symptoms or the day they tested positive ( <b>whichever comes first</b> )  If it is ascertained through testing that the staff or student member has tested positive with the Omicron strain of COVID then all close contacts, regardless of age or vaccination status, will be required to selfisolate for 10 days and will be contacted by NHS Test, Track, and Trace.  All instances where COVID 19 is contracted and is attributable to a workplace transmission <b>MUST</b> be reported to the HSE under RIDDOR.  The student or staff member who tested positive for coronavirus (COVID-19) can return to their normal routine and stop selfisolating after they have finished their isolation period and their symptoms have	1	5	5	appropriate to send all students and staff home within a curriculum or business area until the extend of an outbreak has been ascertained.  It may be appropriate at this time to track and trace known contacts to assist with outbreak management.  Further advice at this point will be sought from the H&S department who may take further advice from the Local Health Protection team and Kirklees Outbreak Management.  If an outbreaks of the Omicron variant is detected the College will work closely with Kirklees Outbreak Management teams and the local health protection team. The curriculum or business support area will switch to home working/learning to mitigate the risk of further outbreaks within College and all known close contacts regardsless of age or vaccination status will be asked to self-isolate for 10 days.  From 14 December 2021, adults who are fully vaccinated and all children and young people aged between 5 and 18 years and 6 months identified as a contact of someone with COVID-19 are strongly advised to take a LFD test

	ı			,	17100000			
		gone or if they continue to have only a residual cough or anosmia.  This is because a cough or loss of taste or smell can last for several weeks once the infection has gone. If they still have a high temperature after 10 days or are otherwise unwell, you should advise them to stay at home and seek medical advice. You should not request evidence of negative test results or other medical evidence before admitting students or welcoming them back after a period of self-isolation.  The SLT and College Management should familiarise themselves with the policy documents that H&S released in relation to the Prevention and Management of	1			every day for 7 days and continue to attend their setting as normal, unless they have a positive test result. Daily testing of close contacts applies to all contacts who are:  • fully vaccinated adults – people who have had 2 doses of an approved vaccine • all children and young people aged 5 to 18 years and 6 months, regardless of their vaccination status • people who are not able to get vaccinated for medical reasons • people taking part, or have taken part, in an approved clinical trial for

COMMUNITY AND ONSITE TESTING  Staff and/or students who develop symptoms of Covid-19 after returning to College	They then must be encouraged to get tested.     STAFF and STUDENTS MUST do this by visiting NHS.UK or telephoning NHS 119     If the test comes back positive they need to contact the College immediately     Close contacts will be contacted by NHS Test, Track and Trace only and as such there is no requirement for the College to conduct contact tracing within the College setting.  If the test comes back negative they must inform the College so that they can then return to College.      If a staff member or a student tests positive and it can be attributable to a workplace exposure, then the College must complete a RIDDOR Report form and notify the HSE.  Students and Staff will receive adequate supervision and training when performing and conducting tests within the Colleges own Testing Centres.  NOVEMBER 2021 – Omicron Varient – all known close contact of those who have tested positive with the Omicron Varient of COVID 19 must self isolate for 10 days starting from the day after last contact. This is regardless of age or vaccination status.	<u>C</u> olle <u>c</u>	je Kis	K Asses	National Test and Trace protocol introduced by the Government.  From the 1st September 2021:  Kirklees College will promote asymptomatic testing of all staff, students and stakeholders to participate in Rapid COVID Testing utilising either its own or community COVID testing centres  From the 1st September 2021 all students will participate in Mass Covid Testing either on site or utilising the Community testing centres before transitioning to home testing.  Individuals with a positive LFD test result will need to self-isolate in line with the stay-at-home guidance.  Those with a negative LFD test result can continue to attend college unless they have individually been advised otherwise by NHS Test and Trace or Public Health professionals (for example as a close contact).  They should continue to apply the measures in the system of controls to themselves and the wider college setting.		

		Kirkiees	Collec	Je i (isi	N 73363	SHEIL
						Colleges should retain a small onsite testing facility so they can offer testing to students who are unable to test themselves.  The asymptomatic testing
						programme does not replace the current testing policy for those with symptoms.
						Anyone with symptoms (even if they recently had a negative LFD test result), should still self-isolate immediately according to government guidelines.
						Those with symptoms are also expected to order a test online or visit a test site to take a lab-based polymerase chain reaction (PCR) test to check if they have the virus. It remains imperative that the system of controls continues to be rigorously applied to enable the safest possible environment.
						The testing programme is an important addition to supporting leaders to maintain the continuity of education through the ongoing pandemic.
29	Test and Trace Protocol:	Both students and staff will be supplied with LFD test kits to self-swab and test themselves twice a week at home.	2	5	10	The asymptomatic testing programme does not replace the current testing policy for those with symptoms.

#### CRITERIA FOR ESTIMATING RISKS

#### LIKELIHOOD OF HARM OCCURING CRITERIA

1	Very Unlikely	An incident will only occur in exceptional circumstances and is a very rare
2	Unlikely	An incident is not likely to occur
3	Fairly Likely	An incident may occasionally occur whilst the event is taking place
4	Likely	An incident is likely to occur whilst the event is taking place
5	Very Likely	An incident is almost certain to occur whilst the event is taking place

#### SEVERITY OF HARM OCCURING CRITERIA

	EVERALL OF THE WAY OF OF WITE OF WITE WAY						
1	Insignificant	Insignificant/very slight Injury – Not likely to require any treatment, no financial loss					
2	Minor	Minor injuries/ill health requiring first aid, minimal financial loss to the College					
3	Moderate	Injury/ill health requiring time off work, may impact the college due to the financial loss sustained					
4	Major	Major injury requiring hospital treatment and possibly life changing, excessive financial loss to the College					
5	Catastrophic	Death or High impact on the future running of the college through financial losses					

#### RISK ASSESSMENT MATRIX

Ļ	5	5	10	15	20	25

O D	1	Trivial	Trivial	Tolerable	Tolerable	Moderate	
		1	2	3	4	5	
		SEVERITY					

Explanatory Risk rating

# **Risk Rating Explanations**

RISK LEVEL	ACTION AND TIMESCALES
TRIVIAL	No action is required
(LTri)	
MODERATE	Efforts should be made to reduce the risk(s), but the cost of prevention
(Mod)	should be carefully measured and limited. Risk reduction measures
	should be implemented within a defined time period.
	Where the moderate risk is associated with extremely harmful
	consequences, further assessment may be necessary to establish more
	precisely the likelihood of harm as a basis for determining the need for
	improved control measures
SUBSTANTIAL	Work should not be started until the risk has been reduced. Considerable
(HSub)	resources may have to be allocated to reduce the risk. Where the risk
	involves work in progress, urgent action should be taken.
INTOLERABLE	Work should not be started or continued until the risk has been reduced.
(HInt)	If it is not possible to reduce risk even with unlimited resources. Work has
·	to remain prohibited.

# Low/Medium/High Converted Risk Levels

Converted Risk Level	Conversion Explanation
Low	Low Risk Level – Incorporates both Trivial and Tolerable risk ratings (1-4)
Medium	Medium Risk Level – Covers Moderate risk rating (5-10)
High	High Risk Level – Incorporates both Substantial and Intolerable risk ratings (12 -25)
