ASSESSMENT

- You will need to attend a minimum of 315 hours of work placement
- Exams – there are 3 exams in total
- Employer set project
- Synoptic assessment
- Research Project

INDUSTRY PLACEMENT

To achieve the T Level qualification, students are required to undertake an industry placement for a minimum of 315 hours.

Placements are dependent on the employer's needs. Some students may have a block placement from June - August, and then attend year two from the beginning of October. Some placements may be for the duration of year two on the two days not timetabled in college.

Industry placements are a mandatory aspect of the T Level where students are required to work towards achieving set learning goals for their T Level certificate to be awarded.

SUPPORT

We have dedicated teams to support both employers and students.

WORK PLACEMENT OFFICER:

Supports employers to match with the right student and help plan the industry placements. They provide ongoing support for the duration of the placement and monitor the students' progress.

PERSONAL DEVELOPMENT TUTOR:

Supports students to prepare for their placement and develop the skills and behaviours needed to successfully complete their placement.

CAREER PROGRESSION

Higher Education or Employment in the following sectors:

- **Veterinary medicine (Nursing, diagnostics, research)**
- **Zoology**
- **Animal Behaviour and Training**
- **Pet Service Industry**
- **Exotics and Ecology**
- **Conservation**
- **Welfare and Rehabilitation**
- **Animal Science**
- **Animal Therapy**
- **Service Animal Support**
- **Wildlife**
- **Education**
- **Marine Biology**

FINANCIAL SUPPORT

Students can access help for travel and some other costs associated with attending their placement.

Additional support is available to enable learners with specialist educational needs and disabilities to access and successfully complete a quality industry placement.
